PAM-OPT: Getting started

Open the directory containing the ESI software. Then find the sub-directory and file highlighted below.

C C ↓ L SI Group → PAM-OPT 2011.0 →	Con	figuration	
Organisieren 👻 In Bibliothek aufnehmen 👻	Fre	tigeben für ▼ Brennen Neuer Ordner Name	Änderungsdatum
 Desktop Downloads Zuletzt besucht 		Windows - Add links between PAM-OPT Windows - Configure PAM-OPT2011.0	26.07.2011 08:42 26.07.2011 08:42

Activate the configuration file (double click) and then delete (löschen) the existing .bat file (J).

Windows - Configure PAM-OPT2011.0	
Möchten Sie "C:\Users\pickett\PAMOPT_Scripts\PamOpt_Env_SAVED.bat" ?	löschen 〈J⁄N〉

After pressing return a similar window to the following should open. This will allow new aliases to be added and suggested names to be modified.

Selected alias (used in PA OPT CDS input file	M- Product s)	Product Version	processor type (bits)	Path
pamcrash_2010) PAM- CRASHSAFE (VP)	2010.0	32	C:\Program Files (x86)\ESI Group\Virtual- Performance\2010.0\Solver-32Bit\pamcrash.bat
pamcrash64_20	0.0 PAM- CRASHSAFE (VP)	2010.0	64	C:\Program Files (x86)\ESI Group\Virtual- Performance\2010.0\Solver-64Bit\pamcrash.bat
pamcrash64_20	1.0 PAM- CRASHSAFE (VP)	2011.0	64	C:\Program Files (x86)\ESI Group\Virtual- Performance\2011.0\Solver-64Bit\pamcrash.bat
wbatch64_7.0	Visual- Viewer-Batch (VE)	7.0	64	C:\Program Files (x86)\ESI Group\Visual- Environment\7.0\Windows-x64\VVBatch.bat
Add a link manually	Add a link manually Upgrade the PAM-OPT link files		es	

For convenience we shall change the suggested alias names for PAM-CRASH and Visual (batch mode). to 'pamcrash' and 'visual' respectively.

The machine you are using is (probably) 64bit. Proceed as follows. activate the third row \Box for the 64 bit V2011 PAM-CRASH version and then on the alias pamcrash64_2011.0. A new box will open. Replace the name pamcrash64_2011.0 with pamcrash and close the operation with OK.

Selected	alias (used in PAM- OPT CDS input files)	Product	Product Version	processor type (bits)	Path
	pamcrash_2010.0	PAM- CRASHSAFE (VP)	2010.0	32	C:\Program Files (x86)\ESI Group\Virtual- Performance\2010.0\Solver-32Bit\pamcrash.bat
	pamcrash64_2010.0	PAM- CRASHSAFE (VP)	2010.0	64	C:\Program Files (x86)\ESI Group\Virtual- Performance\2010.0\Solver-64Bit\pamcrash.bat
V	pamcrash64_2011.0	PAM- CRASHSAFE (VP)	2011.0	64 Change Alias	C:\Program Files (x86)\ESI Group\Virtual- Name
	wbatch64_7.0	Visual- Viewer-Batch (VE)	7.0	Yourwant change the new Name	ryoor Altas Name, Please input OR OR
Add a lii	nk manually 🛛 🖉	Jpgrade the PAM-	OPT link		

The following modified panel should then appear.

Selected	alias (used in PAM- OPT CDS input files)	Product	Product Version	processor type (bits)	Path
	pamcrash_2010.0	PAM- CRASHSAFE (VP)	2010.0	32	C:\Program Files (x86)\ESI Group\Virtual- Performance\2010.0\Solver-32Bit\pamcrash.bat
	pamcrash64_2010.0	PAM- CRASHSAFE (VP)	2010.0	64	C:\Program Files (x86)\ESI Group\Virtual- Performance\2010.0\Solver-64Bit\pamcrash.bat
	pamcrash	PAM- CRASHSAFE (VP)	2011.0	64	C:\Program Files (x86)\ESI Group\Virtual- Performance\2011.0\Solver-64Bit\pamcrash.bat
	wbatch64_7:0	Viewer-Batch (VE)	7.0	64	C:\Program Files (x86)\ESI Group\Visual-re-construct Environment\7.0\Windows-x64\VVBatch.bat

REPEAT the same operations for the last row replacing the alias name vvbatch64_7.0 with vvbatch.

Finally, activate the tab 'Upgrade the PAM-OPT link files' and then the 'Exit' tab.

The new aliases used in PAM-OPT script files are now pamcrash and vvbatch.
